ABOUT

The Roberto Magris & Denis Razz Quartet brings together Italian pianist Roberto Magris, an internationally acclaimed artist, and Denis Razz, a versatile and highly regarded Croatian saxophonist. Each has spent more than thirty years performing and recording on the international jazz scene. Their ensemble includes Karlo Ilić on bass, guitar and oud, and Rajko Ergić on drums and soprano saxophone, two talented multi-instrumentalist from Rijeka, Croatia.

Their collaboration began when Magris recognized the exceptional talent of Razz, whose playing moves fluently from bebop to free improvisation. The quartet has since distinguished itself by blending a wide spectrum of influences, from classic jazz forms to the avant-garde. Their album *In Action*, released in the US by JMood Records (Kansas City), captures this shared musical language and the group's commitment to jazz as a living, exploratory art form.

The ensemble draws on the members' multi-instrumental backgrounds, incorporating acoustic and electric piano, keyboards, Hammond organ, alto and soprano saxophone, flute, bass, guitar, oud, drums, and percussion, shaping a sound that is both expansive and flexible.

REVIEWS

"It is not easy for a European jazz artist to establish a notable profile in the United States, but Italian pianist Roberto Magris has done just that. (...) In Action is a strongly cohesive album, in spite of the array of different styles explored here, and an enduring artistic statement."

— **Dan McClenaghan, AllAboutJazz (USA)**

"In Action presents itself as a project that unites rigor and freedom, tradition and research, roots and movement. The Magris & Razz Quartet demonstrates that contemporary European jazz possesses a vitality deserving of attention, and its strength comes from the ability to combine local identities and global perspectives."

— **Francesco Cataldo Verrina, DoppioJazz (Italy)**

"Magris's talent has long been known, but that of the three versatile Croatians at his side — all three multi-instrumentalists — is only now revealing itself as a minor miracle."

— **Patrick Auwelaert, JazzAndMo' (Belgium)**

"The release of In Action is not only a new milestone in the productive career of Roberto Magris, but an opportunity for listeners not living in Croatia to discover the impressive talents of Denis Razz, Karlo Ilić and Rajko Ergić."

— **Scott Yanow, jazz critic, historian and author (liner notes)**
